As the ORE component having staff responsibilities for the oral and visual presentation of intelligence:

1. Makes all arrangements for the fullest exploitation of United States government officials, returning from overseas, by the various components of CIA and the IAC agencies and arranges substantive briefings in CIA for selected government officials prior to departure for overseas duty.
2. Operates and maintains the Situation Room of CIA, providing an integrated national intelligence portrayal of selected areas of the world of particular interest as indicated by the Office of the Director. Such portrayal will be shown through the media of cartographic displays, graphic studies and charts, pictorial presentations, and audio-visual programs.
3. Provides the components of CIA, graphic analysis in the production of national intelligence, design and execution of cartographic and graphic materials, exclusive of MIS studies and the Operations Analysis Handbook for the Director of CIA, for research, conferences, and presentations.
4. Conducts the necessary liaison through established channels, to accomplish the designated functions.
